

I am a listener of Air 1 (102.7 FM in Portland,OR) and have recently been advised of a change in FM translators that may eliminate Air 1 in my area. Air 1 is one of only 2 christian radio stations in my area. Because of Air 1 I am uplifted in my daily life, as well as informed of events (both local and non-local) that are of interest to me and my family. If Air 1 were taken off the air we would be resigned to listening to only one other station, or be subjected to station's which have foul-mouthed DJ's or profane music, both of which are offensive to myself and my family. Leaving Air 1 on the air is a particular benefit to the community and the public because it offer's alternatives for families who wish to hear safe, family focused programing with a positive message.
